Dear Mayor Tharp and City Council Members:

I am pleased to submit for your review and consideration the proposed 2009-2010 Fiscal Year Budget. This proposed budget provides the financial resources necessary to fund community services, and includes funding for professional law enforcement, professional land use and economic development support, enjoyable parks and recreation services, maintaining streets, innovative and supportive use of technology, safe and efficient water and sewer services, efficient trash and recycling service, school facilities, and reliable electric service.

The City's department heads and staff have prepared this annual financial plan to provide for the continuation of adequate City services for our citizens, and also provide funding for a minimum amount of capital equipment to perform these services safely and efficiently. There are no across the board salary increases proposed for the budget.

The City is experiencing a severe impact due to the world wide economic recession. Unemployment is up sharply in the City and throughout the area. These are difficult times for our residents and businesses. Our revenues are being impacted as people spend less or businesses generate less revenue. The current year impact has been absorbed by deferring non-essential projects and by not replacing all employment positions. Likewise the Commonwealth as a whole is experiencing severe impacts from the recession. The full impact of these state revenue reductions has not been experienced largely through the use of Federal stimulus funds to make up the shortfall. It is not clear if local and state revenues will rebound in sufficient quantity and in time for the 2010-2011 fiscal year. We must carefully evaluate the municipal services we are providing to our citizens to insure that we are as efficient as possible in the delivery of those services. City staff will continue to review the budget to achieve every possible efficiency. The proposed budget calls for the elimination of four full-time and four part-time positions previously budgeted and the freezing of two others. Department head positions have been reduced. We are also continuing to focus our resources to properly maintain current City facilities.

The City faces many challenges in the upcoming year, including continuing issues with our aging infrastructure, the uncertain costs of wholesale electricity, and the uncertain level of state and local revenues. The uncertain nature of our revenue projections, due to the continuing economic crisis, is the most difficult of our challenges in formulating a budget. Changes in projections between now and the date of adoption may cause the need for further budget adjustments. In order to provide the funding necessary for the various operations of the City, the proposed 2009-2010 Fiscal Year Budget does include an increase in the City's personal property tax rate in order to receive a flat level of funding.

Page 2

It calls for no increase in the electric rate, no increase in the water and sewer rate, and no increase in the solid waste rates. There is no proposed increase in the real estate tax rate. City staff recognizes the difficult times facing our residents and businesses and the impact the personal property tax rate increase will have. If Council desires to lessen this impact by lowering or eliminating the proposed increase, budget reductions will have to be found by City staff to offset the reduced funding level. In addition, Council may differ with certain assumptions made by staff on revenue or expenditures. We look forward to discussing these at our workshop.

GENERAL FUND

The proposed Fiscal Year 2009-2010 General Fund Budget is \$16,867,200, a decrease of \$747,693 (4.2%) from the current fiscal year. The primary reasons for this decrease are significant reductions made in education, debt service, and capital outlay.

Highlights of the proposed General Fund Budget include:

- \$4,468,600 in revenues from general property taxes, up 1.7% from FY 2008-2009;
- \$ 4,908,825 in revenues for education, a decrease of 7.3% from the current year; this was more than offset by a decrease in education expenses of \$535,005, or 8.3%.
- A transfer of \$1,467,000 from the Electric Fund; no increase.
- A reduction in interest revenue of \$99,965 [69.1%] reflecting lower interest rates.
- Total capital outlay of \$292,350, a decrease of \$285,370, or 49.4%. Capital projects for the upcoming year have been kept to a minimum. They are focused on safety and minimal upgrades.

SOLID WASTE FUND

The proposed Solid Waste Fund Budget for FY 2009-10 is \$1,076,100, a decrease of \$57,061 (5.0%) from this year's budget. Revenue from private haulers continues to decline.

The proposed 2009-2010 fiscal year budget does not include a transfer from the General Fund to subsidize operations. It does not include an increase in the solid waste fee.

WATER AND SEWER FUND

The proposed Water and Sewer Fund Budget for fiscal year 2009-2010 is \$10,715,280, an increase of \$4,736,080 (79.2%) from the current fiscal year. The reason for the increase is to provide for the funding for the construction work at the Stoney Creek Reservoir.

The proposed budget provides funding of \$24,000 to be used for inflow and infiltration rehabilitation projects in the City. This funding has been committed to address issues identified by the City and the Department of Environmental Quality, and to continue to improve the City's wastewater collection system.

The budget will not call for an increase in sewer and water rates for 2009.

ELECTRIC FUND

The proposed 2009-2010 fiscal year Electric Fund Budget is \$24,501,649, an increase of \$413,521 (1.7%) from the current year. The capital outlay is minimal. There is no proposed increase in base electric rates as a result of the proposed budget. Staff will be reviewing power purchase costs in October of 2009 to recalculate the Power Cost Adjustment if needed. We will continue to aggressively evaluate all options during the upcoming fiscal year to minimize any additional future rate increases to our customers.

CONCLUSION

This budget as proposed allows the City to continue to provide our citizens and businesses with an adequate level of municipal services. The proposed budget provides funding to maintain our core programs and activities. The levels of funding provided in this budget are reaching minimal levels, in particular in the areas of capital improvement. We cannot continue to minimally fund capital improvements to our utilities and other infrastructure. Serious decisions need to be made in the upcoming years as to the level and type of services provided to our residents and businesses.

I want to commend the City's department heads for the hours they spent in developing and refining their budget requests for the upcoming budget year. While there has been much debate over what items would ultimately be recommended, the overriding concern of all the department heads was that our citizens receive the best possible service from their City. I want to offer special thanks to Bart Warner, Assistant City Manager, and Rosie Jordan, the City's Finance Director, for their hard work and diligence during this annual exercise.

Please feel free to let me know your comments and suggestions as you review the information in your budget binders. I look forward to our budget work session on Tuesday, May 12th at the Bedford City Council Chambers: City staff will be present that evening to review this information and answer any questions you may have. The public hearing for the proposed budget will be held on Tuesday, May 26th at 7:30 p.m., as a part of our regular Council meeting.

Thank you for all your efforts to see that our community truly is "the best place to live, work, and play." I appreciate your leadership and your support.

Sincerely,

Charles P. Kolakowski
City Manager
